What is the Annugas Production Enhancer®

Features of the Annugas Production Enhancer®

Design of the Annugas Production Enhancer®

Applications for the Annugas Production Enhancer®

Economic Benefits of the Annugas Production Enhancer®

ANNUGAS PRODUCTION ENHANCER®

About Annugas Compression Consulting Ltd.

- Proudly Manufacturing, Installing and Servicing the Annugas Production Enhancer® Since 1986
- New State of the Art Manufacturing Facility in Wetaskiwin, AB
- Over 22,000 square feet in Two Facilities for Manufacturing, Assembly and Servicing
- In-house Professional Engineering For Product Design and Client Support

ANNUGAS PRODUCTION ENHANCER®

What Is The Annugas Production Enhancer®

- **Double Acting Gas Compressor Mounted on the Pumping Unit**
- **Draws Gas From the Casing and Discharges Into the Flow Line**
- **Uses Pumping Unit Movement to Operate Therefore Requires No Additional Power Source**
- **12 Models Based On Diameter and Stroke Length**

Features Of The Annugas Production Enhancer®

- **Non-Lubricated Design**
- **Virtually Maintenance Free**
- **Fully Field Serviceable**
- **Environmentally Friendly
Eliminating Venting and
Flaring While Increasing
Well Production**
- **Can Be Installed on Most
Pumpjacks**
- **Installs Typically
Completed in 1 Day**
- **Able to Compress Gas From
0 – 2,700 kPa**

ANNUGAS PRODUCTION ENHANCER®

Design of the Annugas Production Enhancer®

- **Designed to the Intent of API Spec 618 “Reciprocating Compressors for Petroleum, Chemical and Gas Industry Services”**
- **Compliant with NACE MR0175 / ISO 15156**
- **Meets or Exceeds ASME Section VIII “Boiler and Pressure Vessel Code”**
- **Intricate Components Are Cast, No Welded Joints On Compressor**
- **Cylinder Caps Are Clamped In Place, No Tie Rods To Loosen**

Applications of the Annugas Production Enhancer®

- Increase Oil Production
- Oil Well Solution Gas Recovery
- Vapour Recovery
- Coal Bed Methane
- Can Reduce “Gas Locking” on Pumps
- De-Water Gas Wells and Compress Gas At Same Time
- Over 2,000 Units Installed in Western Canada, US and Europe

ANNUGAS PRODUCTION ENHANCER®

Economic Benefits of the Annugas Production Enhancer®

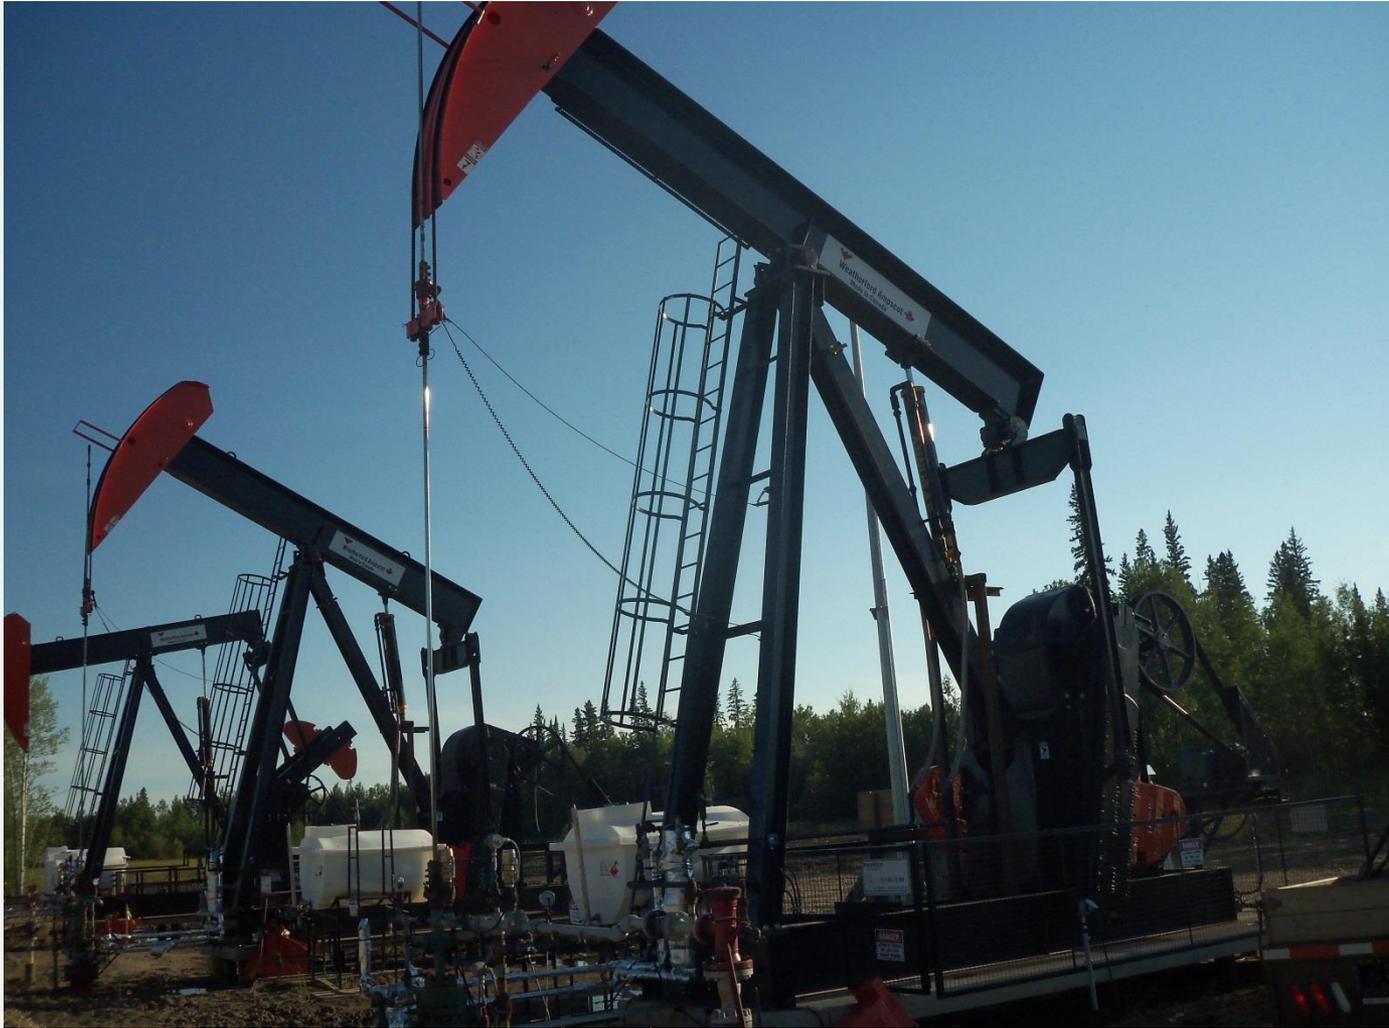

- **Increases Oil and Gas Production By Reducing Formation Back Pressure**
- **Return On Investment Typically Less Than 30 Days**
- **Can Increase Pump Efficiency and Longevity**
- **Does Not Require Separate Power Source**
- **Additional Pumping Unit Load Is Minimal Resulting in Minimal Operating Increase**
